

兔抗 APCS 多克隆抗体

中文名称: 兔抗 APCS 多克隆抗体

英文名称: Anti-APCS rabbit polyclonal antibody

别名: MGC88159; PTX2; SAP

相关类别: 一抗

储存: 冷冻 (-20℃) 避光

宿主: Rabbit

抗原: APCS

反应种属: Human, Mouse, Rat

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a glycoprotein, belonging to the pentraxin family of proteins, which has a characteristic pentameric organization. These family members have considerable sequence homology which is thought to be the result of gene duplication. The binding of the encoded protein to proteins in the pathological amyloid cross-beta fold suggests its possible role as a chaperone. This protein is also thought to control the degradation of chromatin. It has been demonstrated that this protein binds to apoptotic cells at an early stage, which raises the possibility that it is involved in dealing with apoptotic cells in vivo.
Applications:	WB
Name of antibody:	APCS

Immunogen:	Fusion protein of human APCS
Full name:	amyloid P component, serum
Synonyms :	MGC88159; PTX2; SAP
SwissProt:	P02743
WB Predicted band size:	25 kDa
WB Positive control:	Kidney tissue
WB Recommended dilution:	500-2000
