

兔抗 C4BPA 多克隆抗体

中文名称：兔抗 C4BPA 多克隆抗体

英文名称： Anti-C4BPA rabbit polyclonal antibody

别名： PRP; C4BP

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： C4BPA

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	This gene encodes a member of a superfamily of proteins composed predominantly of tandemly arrayed short consensus repeats of approximately 60 amino acids. Along with a single, unique beta-chain, seven identical alpha-chains encoded by this gene assemble into the predominant isoform of C4b-binding protein, a multimeric protein that controls activation of the complement cascade through the classical pathway. The genes encoding both alpha and beta chains are located adjacent to each other on human chromosome 1 in the regulator of complement activation gene cluster. Two pseudogenes of this gene are also found in the cluster.
Applications:	ELISA, IHC

Name of antibody:	C4BPA
Immunogen:	Synthetic peptide of human C4BPA
Full name:	complement component 4 binding protein alpha
Synonyms:	PRP; C4BP
SwissProt:	P04003
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human lung cancer and human ovarian cancer
IHC Recommend dilution:	10-50
