

兔抗 UCN3 多克隆抗体

中文名称: 兔抗 UCN3 多克隆抗体

英文名称: Anti-UCN3 rabbit polyclonal antibody

别名: urocortin 3; SCP; SPC; UCNIII

相关类别: 一抗

抗原: UCN3

储存: 冷冻 (-20℃)

宿主: Rabbit

反应种属: Human

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	This gene encodes a member of the sauvagine/corticotropin-releasing factor/urotensin I family of proteins . The encoded preproprotein is proteolytically processed to generate the mature peptide hormone, which is secreted by pancreatic beta and alpha cells. This hormone is an endogenous ligand for corticotropin-releasing factor receptor 2 and may regulate insulin secretion in response to plasma glucose levels. Patients with type 2 diabetes exhibit reduced levels of the encoded protein in beta cells. In the brain, the encoded protein may be responsible for the effects of stress on appetite.
Applications:	ELISA, IHC
Name of antibody:	UCN3

Immunogen:	Synthetic peptide of human UCN3
Full name:	urocortin 3
Synonyms:	SCP; SPC; UCNIII
SwissProt:	Q969E3
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer and human brain
IHC Recommend dilution:	50-300
