

小鼠抗 MYCN 单克隆抗体

中文名称： 小鼠抗 MYCN 单克隆抗体

英文名称： Anti-MYCN mouse monoclonal antibody

别名： MYCN proto-oncogene, bHLH transcription factor; NMYC; ODED; MODED; N-myc; bHLHe37

相关类别： 一抗

储存： 冷冻 (-20℃)

宿主： Mouse

抗原： MYCN

反应种属： Human

标记物： Unconjugate

克隆类型： mouse monoclonal

技术规格

Background:	This gene is a member of the MYC family and encode s a protein with a basic helix-loop-helix (bHLH) domai n. This protein is located in the nucleus and must dim erize with another bHLH protein in order to bind DNA . Amplification of this gene is associated with a variet y of tumors, most notably neuroblastomas. Multiple al ternatively spliced transcript variants encoding differen t isoforms have been found for this gene.
Applications:	WB
Name of antibody:	MYCN
Immunogen:	Fusion protein of human MYCN
Full name:	MYCN proto-oncogene, bHLH transcription factor

Synonyms:	NMYC; ODED; MODED; N-myc; bHLHe37
SwissProt:	P04198
WB Predicted band size:	50 KD
WB Positive control:	HepG2 cell lysate
WB Recommended dilution:	200-1000
