

绵羊抗 FITC 多克隆抗体

中文名称: 绵羊抗 FITC 多克隆抗体

英文名称: Anti-FITC sheep polyclonal antibody

相关类别: 标签抗体

储 存: 冷冻 (-20℃)

宿 主: Sheep

抗 原: FITC

反应种属: FITC

标 记 物: Unconjugate

克隆类型: sheep polyclonal

技术规格

Background:	Fluorescein isothiocyanate (FITC) is a derivative of fluorescein used in wide-ranging applications including flow cytometry. FITC is the original fluorescein molecule functionalized with an isothiocyanate reactive group (-N=C=S), replacing a hydrogen atom on the bottom ring of the structure. This derivative is reactive towards nucleophiles including amine and sulfhydryl groups on proteins.
Applications:	ELISA
Name of antibody:	FITC
Immunogen:	KLH conjugated FITC
Full name:	Fluorescein isothiocyanate
CAS No.:	27072-45-3
ELISA Recommended dilution:	2000-4000
