

兔抗 CHUK 多克隆抗体

中文名称: 兔抗 CHUK 多克隆抗体

英文名称: Anti-CHUK rabbit polyclonal antibody

别名: IKK1; IKKA; IKBKA; TCF16; NFKB1A; IKK-alpha

相关类别: 一抗

储存: 冷冻 (-20℃)

抗原: CHUK

宿主: Rabbit

反应种属: Human, Mouse

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	This gene encodes a member of the serine/threonine protein kinase family. The encoded protein, a component of a cytokine-activated protein complex that is an inhibitor of the essential transcription factor NF-kappa-B complex, phosphorylates sites that trigger the degradation of the inhibitor via the ubiquitination pathway, thereby activating the transcription factor.
Applications:	ELISA, WB, IHC
Name of antibody:	CHUK
Immunogen:	Synthetic peptide of human CHUK
Full name:	conserved helix-loop-helix ubiquitous kinase
Synonyms:	IKK1; IKKA; IKBKA; TCF16; NFKB1A; IKK-alpha
SwissProt:	O15111

IHC positive control:	Human gastric cancer and human thyroid cancer
IHC Recommend dilution:	25-100
WB Predicted band size:	85 kDa
WB Positive control:	Hela cells
WB Recommended dilution:	200-1000
