

## CDCA4 抗原（重组蛋白）

中文名称： CDCA4 抗原（重组蛋白）

英文名称： CDCA4 Antigen (Recombinant Protein)

别名： HEPP; SEI-3/HEPP

储存： 冷冻（-20℃）

相关类别： 抗原

概述

Full length fusion protein

技术规格

<b>Full name:</b>	cell division cycle associated 4
<b>Synonyms:</b>	HEPP; SEI-3/HEPP
<b>Swissprot:</b>	Q9BXL8
<b>Gene Accession:</b>	BC011736
<b>Purity:</b>	>85%, as determined by Coomassie blue stained SDS-PAGE
<b>Expression system:</b>	Escherichia coli
<b>Tags:</b>	His tag C-Terminus, GST tag N-Terminus
<b>Background:</b>	This gene encodes a protein that belongs to the E2F family of transcription factors. This protein regulates E2F-dependent transcriptional activation and cell proliferation, mainly through the E2F/retinoblastoma protein pathway. It also functions in the regulation of JUN oncogene expression. This protein shows distinctive nuclear-mitotic apparatus distribution, it is involved in spindle organization from prometaphase, and may also play a role as a midzone factor involved in chromosome segregation or cytokinesis. Two alternatively spliced transcript variants encoding the same protein have been noted f

or this gene. Two pseudogenes have also been identified on chromosome 1.
