

## TGFA 抗原（重组蛋白）

中文名称： TGFA 抗原（重组蛋白）

英文名称： TGFA Antigen (Recombinant Protein)

别 名： TFGA

储 存： 冷冻（-20℃）

相关类别： 抗原

概述

Fusion protein corresponding to a region derived from 24-98 amino acids of human TGFA

技术规格

<b>Full name:</b>	transforming growth factor, alpha
<b>Synonyms:</b>	TFGA
<b>Swissprot:</b>	P01135
<b>Gene Accession:</b>	BC005308
<b>Purity:</b>	>85%, as determined by Coomassie blue stained SDS-PAGE
<b>Expression system:</b>	Escherichia coli
<b>Tags:</b>	His tag C-Terminus, GST tag N-Terminus
<b>Background:</b>	This gene encodes a growth factor that is a ligand for the epidermal growth factor receptor, which activates a signaling pathway for cell proliferation, differentiation and development. This protein may act as either a transmembrane-bound ligand or a soluble ligand. This gene has been associated with many types of cancers, and it may also be involved in some cases of cleft lip/palate. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
