

NXNL1 抗原（重组蛋白）

中文名称：NXNL1 抗原（重组蛋白）

英文名称：NXNL1 Antigen (Recombinant Protein)

别名：nucleoredoxin like 1; RDCVF; TXNL6

储存：冷冻（-20℃）

相关类别：抗原

概述：

Fusion protein corresponding to a region derived from 1-212 amino acids of human NXNL1

技术规格：

Full name:	nucleoredoxin like 1
Synonyms:	RDCVF; TXNL6
Swissprot:	Q96CM4
Gene Accession:	BC014127
Purity:	>85%, as determined by Coomassie blue stained SDS-PAGE
Expression system:	Escherichia coli
Tags:	His tag C-Terminus, GST tag N-Terminus
Background:	Retinitis pigmentosa (RP) is a disease that leads to blindness by de generation of cone photoreceptors. Rods produce factors required f or cone viability. The protein encoded by this gene is one of those factors and is similar to a truncated form of thioredoxin. This gene has been proposed to have therapeutic value against RP.
