

兔抗 DNM1 多克隆抗体

中文名称：兔抗 DNM1 多克隆抗体

英文名称：Anti-DNM1 rabbit polyclonal antibody

别名：DNM

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：DNM1

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a member of the dynamin subfamily of GTP-binding proteins. The encoded protein possesses unique mechanochemical properties used to tubulate and sever membranes, and is involved in clathrin-mediated endocytosis and other vesicular trafficking processes. Actin and other cytoskeletal proteins act as binding partners for the encoded protein, which can also self-assemble leading to stimulation of GTPase activity. More than sixty highly conserved copies of the 3' region of this gene are found elsewhere in the genome, particularly on chromosomes Y and 15. Alternatively spliced transcript variants encoding different isoforms have been described.

Applications:	ELISA, WB
Name of antibody:	DNM1
Immunogen:	Synthetic peptide of human DNM1
Full name:	dynamamin 1
Synonyms :	DNM
SwissProt:	Q05193
ELISA Recommended dilution:	1000-10000
WB Predicted band size:	98 kDa
WB Positive control:	Mouse brain tissue
WB Recommended dilution:	200-1000
