

兔抗 DNTT 多克隆抗体

中文名称: 兔抗 DNTT 多克隆抗体

英文名称: Anti-DNTT rabbit polyclonal antibody

别名: DNA nucleotidylexotransferase TDT

储存: 冷冻 (-20℃)

抗原: DNTT

宿主: Rabbit

相关类别: 一抗

反应种属: Human

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	This gene is a member of the DNA polymerase type-X family and encodes a template-independent DNA polymerase that catalyzes the addition of deoxynucleotides to the 3'-hydroxyl terminus of oligonucleotide primers. In vivo, the encoded protein is expressed in a restricted population of normal and malignant pre-B and pre-T lymphocytes during early differentiation, where it generates antigen receptor diversity by synthesizing non-germline elements (N-regions) at the junctions of rearranged Ig heavy chain and T cell receptor gene segments. Alternatively spliced transcript variants encoding different isoforms of this gene have been described.
Applications:	ELISA, IHC

Name of antibody:	DNTT
Immunogen:	Fusion protein of human DNTT
Full name:	DNA nucleotidylexotransferase
Synonyms:	TDT
SwissProt:	P04053
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	20-100
