

兔抗 EGFL8 多克隆抗体

中文名称：兔抗 EGFL8 多克隆抗体

英文名称： Anti-EGFL8 rabbit polyclonal antibody

别名： NG3; C6orf8

抗原： EGFL8

储存： 冷冻（-20℃）

宿主： Rabbit

相关类别： 一抗

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

| | |
|----------------------|--|
| Background: | The epidermal growth factor (EGF) repeat-containing proteins constitute an expanding family of proteins that are involved in several cellular activities, such as blood coagulation, fibrinolysis, cell adhesion, and neural and vertebrate development. EGFL8 (EGF-like domain-containing protein 8), also known as C6orf8, NG3 and VE-statin-2, is a 293 amino acid secreted protein that contains two EGF-like domains and one EMI domain. Via its EGF and EMI domains, EGFL8 may participate in protein-protein interactions that correlate with cellular proliferation and developmental signaling events. In mice, EGFL8 is expressed predominately in brain, kidney, lung and thymus. |
| Applications: | ELISA, IHC |

| | |
|------------------------------------|--------------------------------------|
| Name of antibody: | EGFL8 |
| Immunogen: | Fusion protein of human EGFL8 |
| Full name: | EGF-like-domain, multiple 8 |
| Synonyms : | NG3; C6orf8 |
| SwissProt: | Q99944 |
| ELISA Recommended dilution: | 1000-2000 |
| IHC positive control: | Human brain and human thyroid cancer |
| IHC Recommend dilution: | 25-100 |
