

兔抗 MMP17 多克隆抗体

中文名称：兔抗 MMP17 多克隆抗体

英文名称：Anti-MMP17 rabbit polyclonal antibody

别名：MT4-MMP

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：MMP17

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. Most MMP's are secreted as inactive proproteins which are activated when cleaved by extracellular proteinases. The protein encoded by this gene is considered a member of the membrane-type MMP (MT-MMP) subfamily. However, this protein is unique among the MT-MMP's in that it is a GPI-anchored protein rather than a transmembrane protein. The protein activates MMP-2 by cleavage.
Applications:	ELISA, WB
Name of antibody:	MMP17

Immunogen:	Synthetic peptide of human MMP17
Full name:	matrix metalloproteinase 17 (membrane-inserted)
Synonyms :	MT4-MMP
SwissProt:	Q9ULZ9
ELISA Recommended dilution:	2000-5000
WB Predicted band size:	58 kDa
WB Positive control:	Human colon cancer tissue
WB Recommended dilution:	500-2000
