

兔抗 REN 多克隆抗体

中文名称：兔抗 REN 多克隆抗体

英文名称： Anti-REN rabbit polyclonal antibody

别名： HNFJ2

相关类别： 一抗

抗原： REN

储存： 冷冻（-20℃）

宿主： Rabbit

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	Renin catalyzes the first step in the activation pathway of angiotensinogen--a cascade that can result in aldosterone release, vasoconstriction, and increase in blood pressure. Renin, an aspartyl protease, cleaves angiotensinogen to form angiotensin I, which is converted to angiotensin II by angiotensin I converting enzyme, an important regulator of blood pressure and electrolyte balance. Transcript variants that encode different protein isoforms and that arise from alternative splicing and the use of alternative promoters have been described, but their full-length nature has not been determined.
Applications:	ELISA, IHC
Name of antibody:	REN

Immunogen:	Fusion protein of human REN
Full name:	renin
Synonyms :	HNFJ2
SwissProt:	P00797
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human cervical cancer and Human thyroid cancer
IHC Recommend dilution:	50-200
