

## 兔抗 FAT1 多克隆抗体

中文名称：兔抗 FAT1 多克隆抗体

英文名称：Anti-FAT1 rabbit polyclonal antibody

别名：FAT; ME5; CDHF7; CDHR8; hFat1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：FAT1

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

**Background:**

This gene is an ortholog of the *Drosophila* fat gene, which encodes a tumor suppressor essential for controlling cell proliferation during *Drosophila* development. The gene product is a member of the cadherin superfamily, a group of integral membrane proteins characterized by the presence of cadherin-type repeats. In addition to containing 34 tandem cadherin-type repeats, the gene product has five epidermal growth factor (EGF)-like repeats and one laminin A-G domain. This gene is expressed at high levels in a number of fetal epithelia. Its product probably functions as an adhesion molecule and/or signaling receptor, and is likely to be important in developmental processes and cell communication. Transcript variants derived fr

	om alternative splicing and/or alternative promoter usage exist, but they have not been fully described.
<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	FAT1
<b>Immunogen:</b>	Synthetic peptide of human FAT1
<b>Full name:</b>	FAT atypical cadherin 1
<b>Synonyms :</b>	FAT; ME5; CDHF7; CDHR8; hFat1
<b>SwissProt:</b>	Q14517
<b>ELISA Recommended dilution:</b>	1000-2000
<b>IHC positive control:</b>	Human brain
<b>IHC Recommend dilution:</b>	25-100
