

## 兔抗 FGF5 多克隆抗体

中文名称：兔抗 FGF5 多克隆抗体

英文名称： Anti-FGF5 rabbit polyclonal antibody

别名： HBGF-5; TCMGLY; Smag-82

相关类别： 一抗

抗原： FGF5

储存： 冷冻（-20℃）

宿主： Rabbit

反应种属： Human

标记物 v Unconjugate

克隆类型： rabbit polyclonal

### 技术规格

**Background:**

The protein encoded by this gene is a member of the fibroblast growth factor (FGF) family. FGF family members possess broad mitogenic and cell survival activities, and are involved in a variety of biological processes, including embryonic development, cell growth, morphogenesis, tissue repair, tumor growth and invasion. This gene was identified as an oncogene, which confers transforming potential when transfected into mammalian cells. Targeted disruption of the homolog of this gene in mouse resulted in the phenotype of abnormally long hair, which suggested a function as an inhibitor of hair elongation. Alternatively spliced transcript variants encoding different isoforms have been identified.

<b>Applications:</b>	ELISA, IHC
<b>Name of antibody:</b>	FGF5
<b>Immunogen:</b>	Synthetic peptide of human FGF5
<b>Full name:</b>	fibroblast growth factor 5
<b>Synonyms:</b>	HBGF-5; TCMGLY; Smag-82
<b>SwissProt:</b>	P12034
<b>ELISA Recommended dilution:</b>	5000-10000
<b>IHC positive control:</b>	Human brain
<b>IHC Recommend dilution:</b>	20-100
