

兔抗 FITC 多克隆抗体

中文名称：兔抗 FITC 多克隆抗体

英文名称： Anti-FITC rabbit polyclonal antibody

相关类别： 一抗

储 存： 冷冻（-20℃）

宿 主： Rabbit

抗 原： FITC

反应种属： FITC

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	Fluorescein isothiocyanate (FITC) is a derivative of fluorescein used in wide-ranging applications including flow cytometry. FITC is the original fluorescein molecule functionalized with an isothiocyanate reactive group (-N=C=S), replacing a hydrogen atom on the bottom ring of the structure. This derivative is reactive towards nucleophiles including amine and sulfhydryl groups on proteins.
Applications:	ELISA
Name of antibody:	FITC
Immunogen:	KLH conjugated FITC
Full name:	Fluorescein isothiocyanate
ELISA Recommended dilution:	5000-10000
