

兔抗 RHOA 多克隆抗体

中文名称：兔抗 RHOA 多克隆抗体

英文名称：Anti-RHOA rabbit polyclonal antibody

别名：ARHU; G28K; WRCH1; hG28K; CDC42L1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：RHOA

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a member of the Rho family of GTPases. This protein can activate PAK1 and JNK1, and can induce filopodium formation and stress fiber dissolution. It may also mediate the effects of WNT1 signaling in the regulation of cell morphology, cytoskeletal organization, and cell proliferation. A non-coding transcript variant of this gene results from naturally occurring read-through transcription between this locus and the neighboring DUSP5P (dual specificity phosphatase 5 pseudogene) locus.
Applications:	ELISA, WB
Name of antibody:	RHOA
Immunogen:	Synthetic peptide of human RHOA
Full name:	ras homolog family member U
Synonyms :	ARHU; G28K; WRCH1; hG28K; CDC42L1

SwissProt:	Q7L0Q8
ELISA Recommended dilution:	2000-5000
WB Predicted band size:	28 kDa
WB Positive control:	Mouse stomach and human fetal muscle tissue
WB Recommended dilution:	500-2000
