

兔抗 RPTOR 多克隆抗体

中文名称：兔抗 RPTOR 多克隆抗体

英文名称： Anti-RPTOR rabbit polyclonal antibody

别名： KOG1; Mip1

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： RPTOR

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

| | |
|--------------------------|--|
| Background: | This gene encodes a component of a signaling pathway that regulates cell growth in response to nutrient and insulin levels. The encoded protein forms a stoichiometric complex with the mTOR kinase, and also associates with eukaryotic initiation factor 4E-binding protein-1 and ribosomal protein S6 kinase. The protein positively regulates the downstream effector ribosomal protein S6 kinase, and negatively regulates the mTOR kinase. Multiple transcript variants encoding different isoforms have been found for this gene. |
| Applications: | ELISA, IHC |
| Name of antibody: | RPTOR |
| Immunogen: | Synthetic peptide of human RPTOR |

| | |
|------------------------------------|--|
| Full name: | regulatory associated protein of MTOR, complex 1 |
| Synonyms: | KOG1; Mip1 |
| SwissProt: | Q8N122 |
| ELISA Recommended dilution: | 5000-10000 |
| IHC positive control: | Human lung cancer and human tonsil |
| IHC Recommend dilution: | 25-100 |
