

兔抗 SCGN 多克隆抗体

中文名称：兔抗 SCGN 多克隆抗体

英文名称： Anti-SCGN rabbit polyclonal antibody

别名： secretagoin, EF-hand calcium binding protein; SEGN; CALBL; SECRET; setagin; DJ501N12.8

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： SCGN

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	The encoded protein is a secreted calcium-binding protein which is found in the cytoplasm. It is related to calbindin D-28K and calretinin. This protein is thought to be involved in KCL-stimulated calcium flux and cell proliferation.
Applications:	ELISA, WB
Name of antibody:	SCGN
Immunogen:	Fusion protein of human SCGN
Full name:	secretagoin, EF-hand calcium binding protein
Synonyms:	SEGN; CALBL; SECRET; setagin; DJ501N12.8
SwissProt:	O76038

ELISA Recommended dilution:	5000-10000
WB Predicted band size:	32 kDa
WB Positive control:	Hela cell and Human fetal liver tissue lysates
WB Recommended dilution:	500-2000
