

兔抗 PATJ 多克隆抗体

中文名称:	兔抗 PATJ 多克隆抗体
英文名称:	Anti-PATJ rabbit polyclonal antibody
别名:	PATJ, crumbs cell polarity complex component; Cipp; INADL; hINADL; InaD-like
相关类别:	一抗
储存:	冷冻 (-20℃)
宿主:	Rabbit
抗原:	PATJ
反应种属:	Human
标记物:	Unconjugate
克隆类型:	rabbit polyclonal

技术规格

Background:	This gene encodes a protein with multiple PDZ domains. PDZ domains mediate protein-protein interactions, and proteins with multiple PDZ domains often organize multi-meric complexes at the plasma membrane. This protein localizes to tight junctions and to the apical membrane of epithelial cells. A similar protein in Drosophila is a scaffolding protein which tethers several members of a multi-meric signaling complex in photoreceptors.
Applications:	ELISA, IHC
Name of antibody:	PATJ
Immunogen:	Synthetic peptide of human PATJ
Full name:	PATJ, crumbs cell polarity complex component
Synonyms:	Cipp; INADL; hINADL; InaD-like
SwissProt:	Q8NI35

ELISA Recommended dilution:	5000-10000
IHC positive control:	Human cervical cancer
IHC Recommend dilution:	40-200
