

兔抗 CTSD 多克隆抗体

中文名称: 兔抗 CTSD 多克隆抗体

英文名称: Anti-CTSD rabbit polyclonal antibody

别名: CPSD; CLN10; HEL-S-130P

相关类别: 一抗

储存: 冷冻 (-20℃) 避光

宿主: Rabbit

抗原: CTSD

反应种属: Human Mouse

标记物: Unconjugate

克隆类型: Unconjugate

技术规格

Background:	This gene encodes a lysosomal aspartyl protease composed of a dimer of disulfide-linked heavy and light chains, both produced from a single protein precursor. This proteinase, which is a member of the peptidase C1 family, has a specificity similar to but narrower than that of pepsin A. Transcription of this gene is initiated from several sites, including one which is a start site for an estrogen-regulated transcript. Mutations in this gene are involved in the pathogenesis of several diseases, including breast cancer and possibly Alzheimer disease.
Applications:	WB
Name of antibody:	CTSD
Immunogen:	Synthesized peptide derived from Internal of human CTSD.
Full name:	cathepsin D

Synonyms :	CPSD; CLN10; HEL-S-130P
SwissProt:	P07339
WB Predicted band size:	45 kDa
WB Positive control:	Hela cells lysate
WB Recommended dilution:	500-3000
