

兔抗 CREM 多克隆抗体

中文名称：兔抗 CREM 多克隆抗体

英文名称： Anti-CREM rabbit polyclonal antibody

别名： ICER; CREM-2; hCREM-2

相关类别： 一抗

储存： 冷冻（-20℃） 避光

抗原： CREM

宿主： Rabbit

反应种属： Human Mouse Rat

标记物： Unconjugate

克隆类型： Unconjugate

技术规格

Background:	This gene encodes a bZIP transcription factor that binds to the cAMP responsive element found in many viral and cellular promoters. It is an important component of cAMP-mediated signal transduction during the spermatogenic cycle, as well as other complex processes. Alternative promoter and translation initiation site usage allows this gene to exert spatial and temporal specificity to cAMP responsiveness.
Applications:	WB
Name of antibody:	CREM
Immunogen:	Synthesized peptide derived from internal of human CREM.

Full name:	cAMP responsive element modulator
Synonyms :	ICER; CREM-2; hCREM-2
SwissProt:	Q03060
WB Predicted band size:	39 kDa
WB Positive control:	K562 cells lysate
WB Recommended dilution:	500-3000
