

兔抗 CRH 多克隆抗体

中文名称: 兔抗 CRH 多克隆抗体

英文名称: Anti-CRH rabbit polyclonal antibody

别名: CRF

相关类别: 一抗

储存: 冷冻 (-20℃)

宿主: Rabbit

抗原: CRH

反应种属: Human, Mouse, Rat

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	Corticotropin-releasing hormone is secreted by the paraventricular nucleus (PVN) of the hypothalamus in response to stress. Marked reduction in this protein has been observed in association with Alzheimer disease and autosomal recessive hypothalamic corticotropin deficiency has multiple and potentially fatal metabolic consequences including hypoglycemia and hepatitis. In addition to production in the hypothalamus, this protein is also synthesized in peripheral tissues, such as T lymphocytes and is highly expressed in the placenta. In the placenta it is a marker that determines the length of gestation and the timing of parturition and delivery.
Applications:	ELISA, IHC

Name of antibody:	CRH
Immunogen:	Synthetic peptide of human CRH
Full name:	corticotropin releasing hormone
Synonyms :	CRF
SwissProt:	P06850
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human brain
IHC Recommend dilution:	25-100
