

兔抗 GRTP1 多克隆抗体

中文名称：兔抗 GRTP1 多克隆抗体

英文名称： Anti-GRTP1 rabbit polyclonal antibody

别名： growth hormone regulated TBC protein 1; TBC1D6

抗原： GRTP1

储存： 冷冻（-20℃）

宿主： Rabbit

反应种属： Human

相关类别： 一抗

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	GRTP1 (Growth hormone-regulated TBC protein 1), also designated TBC1 domain family member 6, is a 336 amino acid protein with expression modulated by growth hormone. The TBC1 domain of GRTP1 is a region that is notably conserved among GTPase-activating proteins, which characteristically play a role in the cell cycle and mitosis coordination. Interestingly, expression of GRTP1 is significantly upregulated in post-puberty testis and then maintained in the adult, suggesting that the germ cell may be the major site of GRTP1 function. There are two isoforms of GRTP1, which are a result of alternative splicing events. May act as a GTPase-activating protein for Rab family protein(s).
Applications:	ELISA, IHC

Name of antibody:	GRTP1
Immunogen:	Synthetic peptide of human GRTP1
Full name:	growth hormone regulated TBC protein 1
Synonyms:	TBC1D6
SwissProt:	Q5TC63
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human esophagus cancer and Human colorectal cancer
IHC Recommend dilution:	25-50
