

## 兔抗 MAEA 多克隆抗体

中文名称：兔抗 MAEA 多克隆抗体

英文名称：Anti-MAEA rabbit polyclonal antibody

别名：EMP; EMLP; GID9; PIG5; HLC-10

相关类别：一抗

储存：冷冻（-20℃）避光

抗原：MAEA

宿主：Rabbit

反应种属：Human Mouse Rat

标记物：Unconjugate

克隆类型：Unconjugate

### 技术规格

<b>Background:</b>	This gene encodes a protein that mediates the attachment of erythroblasts to macrophages. This attachment promotes terminal maturation and enucleation of erythroblasts, presumably by suppressing apoptosis. The encoded protein is an integral membrane protein with the N-terminus on the extracellular side and the C-terminus on the cytoplasmic side of the cell. Alternative splicing results in multiple transcript variants.
<b>Applications:</b>	WB
<b>Name of antibody:</b>	MAEA
<b>Immunogen:</b>	Synthesized peptide derived from internal of human MAEA.

<b>Full name:</b>	macrophage erythroblast attacher
<b>Synonyms :</b>	EMP; EMLP; GID9; PIG5; HLC-10
<b>SwissProt:</b>	Q7L5Y9
<b>WB Predicted band size:</b>	45 kDa
<b>WB Positive control:</b>	COLO205 cells lysate
<b>WB Recommended dilution:</b>	500-3000
