

兔抗 STK36 多克隆抗体

中文名称：兔抗 STK36 多克隆抗体

英文名称： Anti-STK36 rabbit polyclonal antibody

别名： FU

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： STK36

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	This gene encodes a member of the serine/threonine kinase family of enzymes. This family member is similar to a Drosophila protein that plays a key role in the Hedgehog signaling pathway. This human protein is a positive regulator of the GLI zinc-finger transcription factors. Knockout studies of the homologous mouse gene suggest that defects in this human gene may lead to congenital hydrocephalus, possibly due to a functional defect in motile cilia.
Applications:	ELISA, IHC
Name of antibody:	STK36

Immunogen:	Synthetic peptide of human STK36
Full name:	serine/threonine kinase 36
Synonyms :	FU
SwissProt:	Q9NRP7
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human liver cancer and Human breast cancer
IHC Recommend dilution:	10-50
