

## 兔抗 TIGD1 多克隆抗体

中文名称：兔抗 TIGD1 多克隆抗体

英文名称： Anti-TIGD1 rabbit polyclonal antibody

别名： EEYORE

相关类别： 一抗

储存： 冷冻（-20℃） 避光

宿主： Rabbit

抗原： TIGD1

反应种属： Human

标记物： Unconjugate

克隆类型： Unconjugate

### 技术规格

|                          |   |
|--------------------------|---|
| <b>Background:</b>       | The protein encoded by this gene belongs to the tigger subfamily of the pogo superfamily of DNA-mediated transposons in humans. These proteins are related to DNA transposons found in fungi and nematodes, and more distantly to the Tc1 and mariner transposases. They are also very similar to the major mammalian centromere protein B. The exact function of this gene is not known. |
| <b>Applications:</b>     | WB  |
| <b>Name of antibody:</b> | TIGD1   |
| <b>Immunogen:</b>        | Synthesized peptide derived from internal of hum  |

|                                 |                                       |
|---------------------------------|---------------------------------------|
|                                 | an TIGD1.                             |
| <b>Full name:</b>               | tigger transposable element derived 1 |
| <b>Synonyms :</b>               | EEYORE                                |
| <b>SwissProt:</b>               | Q96MW7                                |
| <b>WB Predicted band size:</b>  | 67 kDa                                |
| <b>WB Positive control:</b>     | 293 cells lysate                      |
| <b>WB Recommended dilution:</b> | 500-3000                              |
